

The The Tech Sox amazed a throng of onlookers with a tremendous display of power and pitching against the hapless VooDoo Browns last Saturday at Green Acres, Saxonville.

Jerry "Demon" Cohen and John "Fireball" D'Amico mowed down the opposition while the The Tech batsmen led by fiery manager Robert "The Lip" Bacastow made merry at the plate.

Umpires Marvin C. Grossman and Howard Schwartzman kept the game well in hand stationed at the beer keg. Said Voo Doo manager Bob Schwanhauser, "We just faded away."

Fire In Building One Put Out By The Time Firemen Arrive

There was a fire in the basement corridor of building 1 about eight p.m. on Saturday, May 5. The fire broke out in a rubbish pile in the corridor and rapidly spread smoke throughout buildings 1 and 7. Discovered by the night watchmen, the fire was put out in short order in spite of the excitement of several late working Institute personnel who unraveled hoses from as far away as the first floor of building 3.

It is supposed that the fire was caused either by spontaneous combustion or else by a cigarette ash. Some unknown person phoned the Cambridge Fire Department, but the fire was out by the time the three fire trucks arrived.

According to a janitor who was on the scene, the reason the fire got as far as it did was that there is no sprinkler system in the basement of building 1. "It took two or three fires in the trash dump of building 8 before they installed sprinklers there," he said. "Maybe now they will put them in building 1."

Finalists Chosen In Stratton Contest

The eight finalists in the Annual Stratton Prize Contest were announced today by the committee, composed of Professors H. L. Hazen, L. F. Hamilton, and T. H. D. Mahoney. Those who will compete on Tuesday, May 8, in the Moore Room 6-321, at 5:00 p.m. are: Jos. J. Kohn '54, "Mascheroni Constructions"; Sanford A. Kaplan '52, "Defense Restriction"; Walter R. Stahl '51, "Language of the Bees"; Arthur A. Wasserman '51, "The Commercial Production of Carbon Black"; Herbert S. Wolf '52, "What Kind of Universe"; Charles L. Miller '51, "The Engineering Method"; Ralph A. Vitti '52, "Insulations in Fireproof Buildings"; and Robert S. Gooch '51, "Soil Solidification."

Students Must Apply For Test By May 15

Major-General Lewis B. Hershey, Director of Selective Service, has set May 15 as the deadline for college men to mail applications to take the Qualification Test. Postcard applications for the test must be postmarked not later than midnight, May 15.

Comm. Clarifies Status Of Vets

If a man was discharged from the armed forces after June 24, 1948, and served only 6 months prior to that date, he is not considered a veteran by the Selective Service System, it has been pointed out by Mrs. Eleanor Lutz of the Advisory Committee on Military and Selective Service.

Even though the man is classified 4-A and is studying under the Veterans' Compensation Act, he is not necessarily exempt from the draft. If he is not exempt, says Mrs. Lutz, he should definitely take the Selective Service College Qualification Test.

Criteria for Exemption

According to the Selective Service Act of 1948, a man is a veteran and thus exempt from the draft if: 1) he has served in the armed forces honorably on active duty between December 7, 1941, and September 2, 1945, for a period in excess of 90 days or, 2) he has served honorably on active duty between September 16, 1940, and June 24, 1948, for a period of 12 months or more or, 3) if he has served for a period of 12 months prior to June 24, 1948, and after June 24, 1948, was honorably discharged upon the completion of a period of three years or more of active duty.

Thus, if a man was discharged after June 24, 1948, and served only six months prior to that date, he is not a veteran.

Fasset Appointed Institute Director Of All Publications

Appointment of Frederick G. Fasset, Jr., Director of Publications of the Carnegie Institution of Washington since 1945, as Director of the Publications Office of the Institute, was announced May 4 by President James R. Killian, Jr. In addition to heading the Publications Office, Mr. Fasset is to be Director of the Technology Press, and will have charge of the Institute's Summer Session.

The new Publications Office of the Institute has been established to consolidate the planning and preparation of all the Institute's official publications, and to insure that they best serve the educational objectives of the Institute and reflect its high standards. The office will have responsibility for the Institute's catalog, its official announcements, and other documents and printing.

As Director of the Technology Press, Mr. Fasset will have responsibility for the growing number of scholarly publications issued under the imprint of the Institute.

As Director of the Summer Session, Mr. Fasset succeeds Professor Walter H. Gale, who has just been appointed Secretary of the Institute. Mr. Fasset will continue the development of the Institute's summer program, extending its scope and its service to industry and education.

Mr. Fasset is already thoroughly familiar with MIT, having joined the staff of the Department of English and History as an instructor in 1930.

New Dean Of Architecture Likes Institute Integration

A man who is leaving town within an hour is not usually ready to take a few minutes out to talk to an interviewer. An exception to this rule is the new head of the Department of Architecture, Professor Pietro Belluschi, who proved most amiable despite his rush.

Professor Belluschi was born in Italy and attended the University of Rome. Midway in his studies he came to the United States, and continued his education at Cornell University. While at college, he concentrated on studying, for, as he says, "In Europe extra-curricular activities are non-existent; at Cornell I was too busy learning the English language to take part in them." Now, 28 years later, he speaks the language like a native.

Pleased with Staff

For the past two years, Professor Belluschi has been engaged in private practice on the west coast. Prior to that he was at Yale University. Since coming to the Institute, Professor Belluschi says that he has been impressed with the stimulating atmosphere here, which is directly opposed to the business-like atmosphere in the private practice of architecture.

Professor Belluschi is very pleased with his staff here at the Institute, which he considers one of the best in the country. He particularly likes the close cooperation between the various schools here. This cooperation is most important, because each school knows what the others are doing and can plan their pro-

Baker Mem. Foundation Will Survey Undergrad Life As First Project

The major project of the Everett Moore Baker Memorial Foundation for the coming year will be a survey and study of the social, economic, cultural, and academic factors affecting undergraduate life in American educational institutions and in Technology in particular.

Dormitory Reaction To New Proposals Strong But Varied

The reaction of the residents of the undergraduate dorms to the Institute's new proposals has been almost unanimously one of disapproval. In the two weeks since the proposals were first introduced, opinions have gradually consolidated about certain features of the program and constructive suggestions are being made by the various dorm governments.

There is considerable disagreement among the different houses as to what measures should be taken to make the proposals more acceptable to the students. Dormitory Committee is working out a proposal which may suggest making Riverside an "economy" dorm with sharply reduced rents and either cutting desk service in all the dorms to a minimum or raising Baker House rents slightly, leaving East Campus rents at their present level.

East Campus residents seem to feel that since they have not contributed to the loss which the dormitories as a whole have shown, they should not sustain a large part of the cut in service, especially since they feel their house manager and staff have been very efficient

(Continued on Page 4)

It is felt by the Committee and its Advisory Board that such a study will affect the policy-making decisions of the student, faculty, and administration leaders in a way that will tend to better the undergraduate environment.

The study will examine the whole undergraduate structure of the Institute with the specific view of determining what should be the end result of four years at the school, assessing our present efforts in terms of this ideal, and investigating and evaluating means of achieving it.

Phases To Be Studied

Among the specific phases of student life which will be examined are (1) What is the place and function of the various living groups? (2) How can the commuters be better integrated into the Technology community? (3) What is the function of student government and what should be the limits of its authority? (4) Should students have a voice in the formulation of Institute policies? and (5) What is the place of extra-curricular activities in the educational picture?

This spring the Committee will start its project by collecting available published and unpublished material bearing on the subject. Student leaders, faculty, and administration will be called upon to summarize the fundamental poli-

(Continued on Page 4)

EDITORIAL

LEADERSHIP FOR WHOM?

It is the stated intention of the trustees of the Vannevar Bush Trust "to develop qualities of leadership and resourcefulness, not only as applied to scientific problems, but also as applied to the complex fields of government and human relationships." Towards this end they awarded \$500 to the head of the undergraduate student government for use as he sees fit. The plan proposed last week by the President of Institute Committee calls for a leadership conference in the Fall for thirty members of Institute Committee. While many members of Institute Committee could use a course in leadership, there is a much more crying need for the money at this time.

The need is simply one of convincing the student that time spent in extra-curricular activities is not wasted, and that it will teach him how to get along with other people, and how to get others to work for him. A concerted drive during the first week of school in the Fall, possibly including a series of talks by alumni, members of the faculty, and activity leaders would encourage such participation. The activity displays set up for Freshmen Weekend could be left in the cage for use during the week. Many students at the beginning of their Sophomore, Junior, or Senior years would like to join some activity or participate in student government. They may have been forced to give up their extra-curricular work as freshmen because of their studies. Likewise, they may not have taken any interest at all in activities that year for fear that they would suffer scholastically.

To attempt to interest these students in activities and help them become leaders would be much more in keeping with the spirit in which the gift was made, than to continue to preach to the converted.

Beaver Key Members

Newly elected members of the Beaver Key Society, Junior Class honorary-service organization, are as follows:

Robert F. Barnes, Charles Buntschuh, Reinaldo d'Oliveira, Robert Ebeling, Jesse Erickson, Donald Fischer, John Friedenthal, Gilbert Gardner, James Gleason, Sidney Hess, Russell Kidder, Jonas Kjellberg, Jay Koogle, Harold Krimbill, Richard Lindstrom, Merrill Ebner, Marion Manderson, Gene McCoy, John Moga, Bruce Murray, William Peet, Thomas Perkins, Robert Piper, John Redien, Carl Swanson, John Trevett, William Teeple, John Walsh, Stetson Winkfield, Martin Wohl, James Zurbrigen.

Industrial Relations Stand Need Of Psychiatric Skills To Survive

Dr. William C. Menninger, speaking at the Fifth Annual Arthur Dehon Memorial Lectureship in Walker Memorial, May 1, appealed for "the highest priority and unlimited financial support to be given immediately to a searching study of mankind in order to find means of more satisfactorily sublimating his aggressive instincts."

Otherwise, he said, "we may be following a rapid course to self-destruction."

"The increase in efficiency of our destructive power has far outstripped the growth of our ability to exert social control over it," he said. "We have reached a point in our scientific progress where

we can almost annihilate time and space and in a split second demolish a metropolitan city. Not enough of us have focused on the reasons for our inability to understand and get along with each other.

"I plead to our universities to review and revise their curricula so that our future leaders may learn, not only the facts of life, but a satisfying way of life. It is comparatively unimportant that we live more comfortably or more efficiently. It is essential that we learn how to live together."

In describing the need for greater attention to human values, Dr. Menninger pointed out some of the signs of mental unhealthiness which characterizes our industry.

THE STRATTON PRIZE CONTEST

It has long been a complaint of industry that engineers fail to communicate their ideas as adequately as other professional groups. In this age of mass communication it has become increasingly important to be able to write and speak well.

It is the aim of the Stratton Contest to stimulate in the student an interest in the oral presentation of scientific papers. This afternoon the finalists will give their talks in the Moore Room. In past years these talks have proven to be both informative and interesting; this year's should prove to be no exception.

CALENDAR OF EVENTS

WEDNESDAY, MAY 9

Baseball Team. Game with Boston College at Boston College, 4:00 p.m.
Technology Christian Association. Tech Embassy's Fifteenth Annual Conference on Religion. Room 10-250, 4:00 p.m.
Electrical Engineering Department. Colloquium: "Signal Flow Graphs." Professor Samuel J. Mason. Room 6-120, 4:30 p.m. Refreshments in Room 6-321 at 4:00 p.m.
Inter-Varsity Christian Fellowship. "The World Crisis and the Only Solution." Dr. Karlis Leyasmeyer, Latvia. Room 2-190, 5:00 p.m.
Tech Model Aircrafter's. Radio-Control Branch. Regular Meeting. Du Pont Room, Building 33, 5:00 p.m.

THURSDAY, MAY 10

Catholic Club. Apologetics Course. "Philosophy of Catholic Education." Room 2-135, 1:00 p.m.
Mechanical Engineering Department. Lecture: "Correlation of Ranked Data and of Continuous Variables." Professor Rogers B. Finch. Room 3-270, 4:00 p.m.
Physics Department. Colloquium: "Paramagnetic Resonance Experiments in Solids and Liquids." Dr. Arthur F. Kip. Room 6-120, 4:15 p.m.
American Institute of Chemical Engineers. Films: "Marvels of Gasoline Chemistry." Room 12-182, 5:00 p.m.
Glider Club. Business Meeting. Room 33-203, 5:00 p.m.
Silver Club. Spring Dinner Meeting. Blue Room, Walker Memorial, 6:00 p.m.

FRIDAY, MAY 11

Freshman Tennis Team. Match with Brown University. Briggs Field 2:15 p.m.
Mechanical Engineering Department. Seminar: "Flow of Air Through Cascades, Experiment and Interpretation." D. C. Prince, Jr. Room 3-270, 4:00 p.m. Coffee served in Room 3-174 from 3:30 to 4:00 p.m.
American Institute of Chemical Engineers. Annual Dinner. Smith House, 6:30 p.m.

SATURDAY, MAY 12

Golf Team. Eastern Round Robin. Yale University, 9:00 a.m. and 1:00 p.m.
Electric Railroader's Association. Field trip over East Boston M.T.A. Rapid Transit extension. Meet at Ware Lounge, East Campus, 1:15 p.m.
Varsity Baseball Team. Game with American International College. Briggs Field, 2:00 p.m.
Freshman Tennis Team. Match with Keene Teachers College, Briggs Field, 2:15 p.m.
Freshman Baseball Team. Game with Boston University. Nickerson Field, 2:30 p.m.

SUNDAY, MAY 13

Nautical Association. Individual Freshman Championship. Sailing Pavilion, 10:00 a.m.
Golf Team. Eastern Round Robin. Yale University, 1:00 p.m.

MONDAY, MAY 14

Technology Matrons. The Book Club. At the home of Mrs. Richard Soderberg, 543 Boston Post Road, Weston, 1:00 p.m.
Mathematics Department. Lecture Series: "Riemann Surfaces." Professor Maurice Heins, Brown University. Room 2-229, 4:00 p.m.
Acoustics Laboratory. Seminar: "Instrumentation for the M.I.T. Acoustics Laboratory Computers." F. Mansfield Young. Room 20E-121, 4:30 p.m.
School of Humanities and Social Studies and Lecture Series Committee. Eleventh in a series of lectures on THE WORLD AND YOU. Subject: "Who is Going to Pay for This War?" Speakers: John Crider, Editor, Boston Herald; and Arthur M. Schlesinger, Jr., Professor of History, Harvard University. Interlocutor: Professor Charles F. Kindleberger, M.I.T. Huntington Hall, Room 10-250, 5:00 p.m.

TUESDAY, MAY 15

Technology Matrons. The Bridge Club. Annual Spring Luncheon. 1775 House, Concord Turnpike, 1:00 p.m.
Mathematics Department. Lecture Series: "Riemann Surfaces." Professor Maurice Heins, Brown University. Room 2-229, 4:00 p.m.
Society of Automotive Engineers, Student Branch. Meeting. Film: "A Report of a Generation of Metallic Bearing Surfaces." Room 31-161, 5:00 p.m. All are welcome.
Christian Science Organization. Meeting. Subject of Readings: "Perfection." Tyler Lounge, Walker Memorial, 5:15 p.m. All are welcome.

EXHIBITIONS

Exhibition of Faculty Club Art. Lobby of Building 7, through May 12.
Photographic Salon prints by Ralph L. Mahon of Elmhurst, Illinois. Photographic Service Gallery, Basement of Building 11, through May 13.

CALENDAR OF EVENTS

The CALENDAR OF EVENTS, published weekly on Tuesday in THE TECH, contains announcements for the following week. Announcements, typewritten and signed, must be in the office of the Editor, Room 7-204, not later than noon on Thursday, May 10, for the Calendar of May 16-22, 1951.

Letters to the Editor

Dear Sir:

I have prepared some quantitative data on the Walker Dining Service food prices. This was done by comparing the prices of six Howard Johnson Daily Specials (on their menu of May 3) with the prices of Walker equivalents. A Howard Johnson Special includes choice of soup, entree, rolls, choice of dessert, choice of beverage. The Walker prices were computed by adding the price of a cup of soup, pie, and milk to the price of the entree. The results show that the Walker prices are on the average 11.8% higher than those at Howard Johnson, and in only one case was the Walker price lower than that of Howard Johnson. No one will dispute that any disparity in quality between Howard Johnson dishes and Walker dishes is in favor of Howard Johnson's. As for quantity, most of my friends agree that there is no difference. In addition, HJ has a larger staff because of their use of waitresses. Add to this the fact that Howard Johnson must be making at least 20 to 25 percent profit, while Walker is supposedly non-profit and the effective difference in prices is overwhelming. Taking into account that HJ is probably making more profit on their more expensive dishes than on their Specials, I would estimate that the effective difference is still in the neighborhood of 25%.

I feel certain that if a profit making organization were to take the place of Walker it would be able to reduce prices substantially and still make a decent profit. However, I have been informed by Ben Sack, East Campus House Chairman, that "the Institute has told us when we suggested this that they are not thinking of giving up the Dining Service."

Since this is the case, and "non-profit" Walker is to stay, I feel that an immediate 20% across-the-board decrease in prices should be demanded. As aids to supporting this demand, I suggest:

1. Boycott Walker whenever it is physically possible.
2. Pay for all meals in pennies. While this suggestion may be called juvenile and petty, it certainly would be effective since the annoyance and extra work of counting several thousand pennies daily and sorting them into rolls of fifty is considerable. I would be willing to go to the bank daily to obtain pennies if enough students show interest in this suggestion.

GEORGE TURIN, '51

"Dear old Mother! She always put plenty of Angostura* in the Old Fashioneds."

ANGOSTURA.
AROMATIC BITTERS
MAKES BETTER DRINKS*

*An Old Fashioned is just one of the things that gets extra bounce from extra Angostura. Try tangy Angostura in gravies or on fish!

To the Editor:

Since the proposal on campus living has been released by the Administration, the East Campus has been in a state of confusion and turmoil, and as Chairman of the House Committee I have been in the middle of this confusion. Many have declared that I am not representing them properly, and I have been threatened with everything from lynching to impeachment; yet on the other hand there are some who congratulate and thank me for my efforts on their behalf.

I believe this situation is brought about by a lack of agreement on what a representative should do, and in general on the duties and responsibilities of an elected representative. Therefore I should like to state my opinions on this basic question.

It is my firm opinion that a representative should do more than represent the majority opinion of those he represents. If this were the limit of his job, all he need be is a vote counter on any issues which may arise. I contend that in addition to being a vote counter an elected representative must be a leader, and furthermore, I believe that this is the more important part of the job.

In his dealings with the Administration, a representative acquires a great deal of knowledge which concerns particular situations but which is unavailable to the general public. Accordingly, he must consider these situations in the light of this information, and therefore may not reach the same conclusions that his constituents do. Further-

more, he comes to realize that there may be another side to the argument, and therefore becomes aware of the fact that it is not an all-or-nothing affair, but one which must be bargained as sensibly as possible, in order to achieve as many of the objectives of his constituents as possible.

In my opinion, I am fulfilling my position properly when I get all the information available, make it public, ask for your opinions, draw conclusions, and present these conclusions to the Administration in an attempt to best serve the interests of the East Campus residents. If the East Campus residents would rather have me do nothing more than count the hands pro and con every time something controversial comes up, I shall be glad to do so. I will then gladly forward the results of this vote to the Administration in your behalf, if you so desire. I do not, however, feel that this fulfills the requirements of my office.

BENNET SACK, '53
Chairman, East Campus House Committee

Dear Sir:

I would like to make a suggestion to the administration (i. e., Mr. Kimball) on the subject of the proposal. A few hours spent in writing out and publishing a fully detailed financial background on the proposal showing exactly, in as much detail as possible, the status of the dormitory system would do much to aid student understanding and approval of the proposal. The data released so far are, from an accounting point of view, grossly

Princeton Takes Compton Cup At Annual Regatta

Six Scheduled Races Shows Beaver Eight Lowmen

By MARK CAPLAN

The Princeton Heavies were a happy bunch last Saturday when they took the cup that Harvard was seeking for the tenth straight year. The Compton cup, which was first presented for competition in 1933 by Dr. Karl T. Compton, was taken by Harvard in 1937 and had been in their possession ever since. Saturday the Princeton Eight beat out Harvard by a length and one-quarter and Tech by four lengths to easily walk away with the prize. The winning time was 9:12.3.

6 Scheduled Races

The afternoon was full of races, starting at 2:00 P.M. and ending at 5:30. The first scheduled race was between the 150 lb. Frosh from Harvard, Tech and Tabor Academy. Harvard crossed the finish line first in 7:37.5 in the Henley 1 5/16 mi. distance with Tech 1 1/2 lengths behind. The second race of the day featured the 150 lb. J. V. from Tech, Harvard, and Tabor with the Crimson again taking the honors by crossing the finish line in 7:16 with the Engi-

neers about 2 1/4 lengths behind them.

The third, and last Henley distance race was between the Crim-son and Engineer 150 lb. varsity and was undoubtedly the best race of the day. The two boats battled it out from start to finish with each one just nosing out the other at different parts of the distance. The Crimson crossed the Finish line just one second ahead of Tech (which is less than a decklength) to win the race in 7:21. It was a heartbreaker for the Engineers.

3 Heavy Races

The fourth race of the day was

Freshman Score: M.I.T. 81, Tufts 40.

Tech Sailors Romp At Eastern Championship

Nickerson Stars For [Undeclared] Team

By BOB GROSS

The best racing skippers in the East were no match for Bob Nickerson and Howie Fawcett as the undefeated Tech Sailing Team romped to victory, winning the Owen Trophy for the Eastern Dinghy Racing Championships for the second consecutive time.

The best twelve schools in the Eastern United States met at Edge-wood, R. I., on Narragansett Bay, for a full weekend's competition. The prize was the most important trophy of the regular intercollegiate racing season.

Heavy seas and winds up to 40 mph greeted the contestants as they began the first day's sailing. Competition was keen and sailing difficult, with breakdowns and cap-sizes relieving the monotony of MIT firsts, as the Engineers emerged with a 23-point lead in five races.

Sunday's racing began in light weather, the wind being too feeble to extinguish a match. Later in the day the wind again picked up until a strong gale curtailed activity.

But blow hard or stay calm, the sailors took first after first, emerg-ing as Eastern Champions.

In division A, Bob Nickerson skip-pered his way to six firsts and two seconds in the nine races to amass a total of 102 1/2 points out of a possible 108. Competition meant nothing to Bob as he and Larry Buckland, his crew, sailed through fleet after fleet to emerge as East-ern Dinghy Racing Champions.

Howie Fawcett and Dick Moroney took scoring honors in their divi-sion. Howie was forearmed and used the lightweight sailing team manager, Bill Morton as crew when the winds were absent to help him obtain 88 points, bringing the Tech total to 190 1/2 points and besting second-place Coast Guard's score by 34 1/2.

Tech Nine Drops Game To Tufts

Playing a rejuvenated Tufts Col-lege team who had been beaten by Tech a few weeks ago when Amos Dixon pitched a sensational two-hitter, the Beaver diamondmen dropped this one 9-4.

M.I.T. got off to a bad start in the first inning when two errors helped four runs to score. After a hectic three innings things quieted down somewhat and Amos Dixon was sent in as relief. With bases loaded, a wild pitch served to send in one unearned run. The rest of the side was retired without any more trouble. A Tufts home run later in the game was the last run they were able to score after the seven gotten in the first three frames.

Possible Rally Doused

With the score 9-2 in the ninth a budding rally got started when Pete Phillou led off with a single and Fred St. Laurent walked. Gene Lubarsky singled scoring Phillou and sending St. Laurent to second.

Beaver Lacrosse Team Wins 7-6

Last Saturday the Beaver la-crosse team traveled to the U. of New Hampshire where they downed the Wildcats by the slight margin of 7-6. It was a tight dual all the way. The score at the end of the first half was 3-3. In the second half the two teams racked up 3 more points apiece until with only two minutes left in the game, Miller countered for Tech to make the final score 7-6 with the Beavers on top.

LAKE WINNIPESAUKEE

NOTICES

Hillel Foundation

David Ben-Gurion, first Prime Minister of Israel, will speak at Brandeis University, Waltham, on May 16, in honor of the third anniversary of the founding of the new state. For the convenience of those Technology students who wish to attend the speech, buses will run from M.I.T. direct to Brandeis. The buses will leave 77 Mass. Ave. at 2:00 p.m. on Wednesday, May 16, and are expected to return by 5:00 p.m. The fare will be 40 cents for the round trip. Those interested can sign up at TCA office, or call Hillel House, TR 6-6138.

Philosophers

"Censorship and Individual Liberty" will be the topic of discussion at the organization meeting of a Philosophical Discussion Club, to be held at 7:30 p.m. today in Crafts Lounge in the Senior House. Object of the organization will be to consider and develop codes of action for living in the modern world, and to defend personal freedoms from the attacks of political or philosophical dogmatists. Anyone who is interested in the establishment of this organization is invited to participate.

Catholic Club

Father Paul Murphy, S.J., will speak at the weekly meeting of the Catholic Club tomorrow in Room 1-190 at 5:00 p.m. He will talk on "Catholic Action After Graduation." All are welcome.

New Constitution

Copies of the proposed Constitution of the Undergraduate Association are now available in the Institute Committee Office for anyone who wishes them.

LSC Films

"The Freshman," one of Harold Lloyd's comedies of the silent era, will be the last of the Lecture Series Committee movies to be presented this term. The film will be shown Wednesday, May 9, at 5:00 p.m. in Room 10-250. Also included in the program will be a Robert Benchley sound short entitled "The Sex Life of the Polyp." Any seats not occupied by members of the Cambridge Police Dept. will be available at 30 cents.

Tech House

Tech House applications for dates up to June 1952 are now available at the T.C.A. These must be submitted before May 14, 1951.

Premarital Sex

Today, at 5:00 p.m., in Room 10-250, the Lecture Series Committee will present a talk by Peter A. Bertocci, Professor at Boston University, and author of the book, "Sex, Love, and Marriage," on the "Place of Premarital Sex in Love."

Following the lecture there will be a question period. Written questions may be submitted beforehand by placing questions in the box for that purpose at the entrance to Room 10-250.

Tech Embassy

The T.C.A. is sponsoring a day of religious emphasis at M.I.T., the annual "Tech Embassy." This year Prof. Karl Deutsch will deliver the principal

and helpful.

Baker House also feels that its staff has contributed a lot to improving living conditions there. Eighty per cent of the Riverside residents have signed petitions against the cutting of mail and phone services and the ban on refrigerators. They feel that the removal of their room telephones, just installed this year, is unjustified.

Belluschi

(Continued from Page 1)

grams accordingly. "M.I.T. is a wonderful tool for the teaching of architecture," he said, "but only by integrating the various schools so that a well-rounded education is available can M.I.T. take full advantage of its position. Other schools have failed to get this co-operation, and hence have failed to develop the sense of unity which is present here."

Favors Flexible Styles

Following the modern trend in architecture, Professor Belluschi favors a style that takes into consideration human beings with their weaknesses and desires. It should be flexible and suited to individuals, rather than following a definite pattern. Professor Belluschi is still in the process of finding a place to live and does not know what style home he will have.

address, "Sources of Our Strength" in 10-250 on May 9 from 4:00 to 5:00 p.m. All are welcome.

Grade House Election

Elections for the Graduate House Committee for next year will be held in the Graduate House on Thursday, May 10, from 8:30 a.m. to 6:00 p.m. Ballots will be available in the Graduate House lobby. An amendment to the House Constitution which would change the ballot system for future elections will also be voted upon.

Net Stars Slam Bates
Drop One To R.P.I.

M.I.T.'s netmen are continuing to add to their excellent record this year. Though losing to Rensselaer Polytech 7-2 on Friday, Bates College was beaten quite handily 8-1 this Saturday. The impressive record of the tennis team to date consists of five victories against Boston College, Bowdoin, Colby, Boston University and Bates. Two matches were dropped to Brown and R.P.I.

Crew

(Continued from Page 3)

the regular 1 3/4 miles and it featured the Heavy Frosh crews from Tech, Harvard, and Princeton. Princeton won it in 9:37.2 with a close battle between Tech and Harvard all the way.

The fifth race was the Heavy J. V. match between Tech, Harvard, and Princeton. Although Princeton got off to a tremendous start Harvard gained on them continually and from then on it was their race.

Baker Project

(Continued from Page 1)

cies which govern their actions. It took the Committee over two months to select the project. It hopes to have the work completed by February.

Because of the nature of the project, the Committee expects to use only a small portion of this year's income from the Baker Fund. The unused portion will be available to next year's Committee.

Letters

(Continued from Page 2)

oversimplified, misleading, and all

but useless. A complete report would show the exact origins and proposed resolution of the financial difficulties of the dormitory system.

As the situation now stands, it would appear that the administration has something to hide. The proposal contains no real financial data. At the meeting at Morss Hall Mr. Kimball didn't answer questions directly and certainly seemed to evade the issue in many instances. It would therefore seem that facts are being hidden. Why? MIT should certainly stand to lose nothing by opening its books to students.

Campus Interviews on Cigarette Tests

Number 20...THE BALTIMORE ORIOLE

Clean-up man on the baseball nine, this slugger

doesn't like to reach for 'em... wants it right over the plate.

And that's the way he likes his proof of cigarette mildness! No razzle-dazzle "quick-puff" tests for him. No one-whiff, one-puff experiments.

There's one test, he's discovered, that's right down the alley!

It's the test that proves what cigarette mildness really means.

THE SENSIBLE TEST... the 30-Day Camel Mildness Test,

which simply asks you to try Camels as a steady smoke—

on a pack-after-pack, day-after-day basis.

After you've enjoyed Camels—and only Camels—for

30 days in your "T-Zone" (T for Throat,

T for Taste), we believe you'll know why...

More People Smoke Camels
than any other cigarette!

"Thrifty" Co-ed Student Sailing

Join the student group this summer to Rotterdam on the S. S. VOLENDAM, host to over 4000 students on three annual sailings since 1948. Return sailing September 5 from Rotterdam.

Dormitory type accommodations. Plenty of deck space. Large, public rooms. Good and plentiful menu. High standards of Dutch seamanship, cleanliness, and traditional friendliness.

Staff of 20 distinguished European and American lecturers, under the joint direction of Netherlands Office for Foreign Student Relations and U. S. National Student Association offer a comprehensive Orientation Program enroute.

\$300

Round Trip for dormitory-type space, \$320 for multiple-berth cabins for women.

Applications from bona fide college students only are being accepted by
